## RUSSIA WILL NOT GIVE UP

### FAVORS CONTINUATION OF THE WAR

#### Imperial Commission Finds Nothing in Present Situation to Cease Hostilities With Japan—War News.

St. Petersburg, March 30.—It is understood the imperial commission under the presidency of Grand Duke Nicholas Nikolaevich, which has been considering the question of prosecuting the war, has completed its preliminary report, which favors continuation of the war, finding nothing in the present situation either financial or military to prevent prosecution.

There was no further peace news to day. All eyes are centered on Washington and Paris, where developments are anticipated. Washington dispatches are scanned with especial eagerness. Reports of President Roosevelt's conferences with Minister Takahira and Ambassador Jusserand and Von Speck-Sternberg, in spite of denials, are believed in diplomatic circles here to relate to opening of negotiations.

The foreign office continues to maintain that Russia has taken no official step, which certainly is literally true. There is important admission, however, that Jusserand upon his own responsibility may have given Roosevelt the French idea of Russia's position. The French embassy also insists it has no knowledge of what move, if any, has been made.

Members of the war party, who are at daggers drawn with friends of peace, are industriously insinuating that if Russian diplomacy is doing anything in the direction of peace it is without imperial sanction and is in reality only an unofficial endeavor to induce Japan to agree to negotiate on lines of no cession of territory and no indemnity and to enable the advocates of peace to point out to the emperor that peace is possible without humiliation.

**JAPS IN CHARGE.**  
Gunsu Pass, March 30.—Chinese merchants arriving here after a circuitous flight from Mukden relate that the Japanese have taken over administration of Manchuria. They have installed Japanese officials in place of Chinese, have taken possession of Russian administrative buildings and have established a Japanese police force at Mukden. Work of converting the railroad from Port Dainy to Mukden into a narrow gauge road have been completed, giving the Japanese three railroad lines of supply. Fresh Japanese troops are reported to be arriving at the front.

**SCOUTS ARE ACTIVE.**  
Harbin, March 30.—Japanese scouting parties are very active in endeavoring to pierce the screen of the Russian vanguard posts and develop the disposition and strength of positions, their attempts at times verging on the nature of reconnaissance in force. A few Japanese batteries which have pushed far forward occasionally drop shrimps shells in suspected places. Yesterday there was a smart brush where General Litschenko is stationed. The Japanese pressing forward. Japanese have been pressing forward in determined endeavor to make a thorough reconnaissance and learn disposition of troops in this quarter. Russians repelled their advance, uncovering their dispositions. Chinese state that heavy Japanese reinforcements are constantly arriving.

**WAR REPORTS.**  
Mogilev, Russia, March 30.—Proclamations have been scattered broadcast here calling upon people to support war in order to escape a second Mongolian yoke, the Japanese being described as worse than the locusts of Egypt.

St. Petersburg, March 30.—A telegram from Silesia to day says: "Chinese report a Japanese column, which probably is carrying out a flanking movement, has been seen twenty-seven miles northeast of Shinghai and seventy-four miles north of The Pass. Snow has filled the valley here."

Paris, March 30.—Admiral Rojestvensky in the course of an authorized interview with the Matin correspondent (the island of Nossibe March 4 said future movements of the squadron depended on arrival of coal and military developments. "Slow arrival of coilers," he said, "becomes a serious question when a fleet consists of sixty warships. If coal is abundant I may go to meet the third division."

St. Petersburg, March 30.—Linsvitch has issued an address to his troops praising their valor and calling upon them to do their duty to the emperor and the fatherland.

#### JAPAN'S ATTITUDE.

Paris, March 30.—Regarding the statement telegraphed from St. Petersburg that Russia's negative conditions precedent to peace negotiations have been known to Japan, a personage who is conversant with Japan's attitude in the matter said to the Associated Press:

"Russia's evident desire for peace is observable to Japan the same as to the rest of the world, and Japanese statesmen doubtless possess superior facilities to correctly estimate peace tendencies in responsible Russian quarters. Japan knows Russia wants peace without indemnity, without humiliation and without rigorous terms. But this does not fulfill the re-

quirements necessary to initiation of peace negotiations. On the contrary, if Russia wants peace certain definite steps are necessary. It is essential Emperor Nicholas personally pronounce himself for peace, as Japan is fully aware he is the sole autocratic power. After that, instead of a vague intimation, it will be essential to adopt usual formalities of giving peace. "Concerning indemnity, no one is authorized to state the amount Japan will claim, but it is clear some very substantial indemnity is necessary as compensation for Russia's causing Japan to engage in a costly war. Concerning other terms, these are varying as the campaign progresses and taking of Vladivostok will make further material changes in conditions on which peace will be possible."

## TALK AT TOKIO

### Rumors of Peace Negotiations Commented Upon and Discussed

Tokio, March 30.—Various rumors of peace negotiations emanating from Europe and the United States are widely published and commented upon here. Apparently they do not affect the attitude of the Japanese government and people toward the war. The press re-echoes the announced determination of the Japanese to vigorously push military operations unimpeded and undeterred by discussions of events in Russia or elsewhere. The Nichi Nichi says France alone is capable of taking the initiative in persuading Russia to negotiate for peace, but the Nichi Nichi doubts if Russia would accept France's advice, "because terms would mean the death of the bureaucracy, and the bureaucracy is not committing suicide."

#### REPORT DENIED.

Washington, March 30.—Hayden Minister Leger received a cablegram from the president of Hayti contradicting the cablegram of Minister Powell received yesterday stating serious trouble is impending in Hayti and that it is doubtful whether authorities can maintain peace and order on March 31 and April 1. According to Leger's advice the country is quiet and there is no fear of an uprising.

## FINNISH DIET

### Conceded Two Points in Petition to Emperor of Russia

St. Petersburg, March 30.—The emperor has given answer to the petition of the Finnish diet asking that all imperial decrees since the diet of 1899, which, it is claimed, are in contravention of the organic law of Finland, be withdrawn or submitted for approval of the diet. The emperor in the decision conceded two points—suspension of the conscription act until 1908, when the whole question will be resubmitted to the diet, and in lieu of military service Finland will have to pay a contribution of \$2,000,000 in the same way as the Mussulmans of the Caucasus pay \$24,000 instead of furnishing recruits. The emperor also conceded the point of irremovability of judges.

New York, March 30.—Because of the breaking of a high pressure piston rod on her preliminary trial trip off Fire Island the torpedo boat O'Brien, which was to have an official trial to day off Newport, returned to dry dock at the New York navy yard. ## WHAT JAPAN MAY EXPECT

### CESSION OF TERRITORY AND INDEMNITY

#### Views Expressed by Japanese Officials in London—Peace Talk Prevalent Everywhere in Europe.

London, March 30.—Peace talk is prevalent everywhere, but that negotiations have commenced is still positively denied in all official circles here. The foreign office disclaims even having any knowledge of peace proposals. It is quite evident, however, that while the first definite step may be taken at any moment an advance further than indicated in the Associated Press dispatches may be postponed indefinitely.

Japanese Minister Hayashi declared to the Associated Press this evening that he had no information in regard to the announcement contained in St. Petersburg dispatches of the Associated Press that Russia had indirectly made known to Japan the negative conditions on which peace might be concluded, namely, no cession of territory and no indemnity, leaving Japan to determine whether peace negotiations could be begun upon that basis, but he said unreservedly that the terms mentioned could not even be considered, and added: "A cession of territory and indemnity are the only points negotiable, as Japanese ante-bellum demands have already been secured by Japan."

M. Takahashi (Japanese special financial commissioner) in an interview to day said to the Associated Press: "The war cost between \$250,000,000 and \$300,000,000 the first year and it is estimated it will cost \$350,000,000 during the present year. It would be unprecedented in the history of great wars that no indemnity and no territory be given up by the vanquished. While it is beyond my province to discuss terms of peace, I can express my personal opinion that as the war was forced upon Japan, it is not likely that she will waive the right to indemnity and cession of territory when concluding peace."

Three officials of the bank are named as being responsible for the shortage and speculation in stocks is given as the cause for their being obliged to use the bank's money.

Resources of the bank are \$379,849, individual deposits, \$313,949. At a meeting of the directors Jan. 10 the regular semi-annual dividend of 5 per cent was declared and the statement was then made the bank was one of the soundest in the city. It was also announced deposits for two months prior to the dividend meeting exceeded those of all other banks in Lorain. ## ENGLISHMEN SURPRISED

### AT POLICY OF GERMANY TOWARDS MOROCCO

#### Was Thought Emperor's Visit to Tangier was Non-Political—Sultan May Become Defiant of France.

London, March 30.—The Associated Press learned at the foreign office to day that Chancellor von Buelow's announcement in the Reichstag yesterday of Germany's policy toward Morocco came as a complete surprise to the British government. It was believed Emperor William's visit to Tangier was without political significance.

When the Anglo-French entente was concluded in 1904 France officially informed Germany of the fact and also of the agreement between herself and Spain signed six months later whereby France was given mandate to regulate the affairs of Morocco. Reforms in Morocco were imperatively necessary for the good of all powers commercially interested. France, being the most concerned financially and commercially, was given mandate to institute reforms. As an open door was guaranteed, all countries concerned, it was said at the foreign office that it is difficult to understand here what can be Germany's motive. The German attitude, it is believed, will certainly make the sultan of Morocco defiant of the French and cause him to persist in his old-time conduct, which will be destructive of trade and endanger life.

London, March 30.—Editorial articles and dispatches printed in London newspapers almost all reflect a certain sense of uneasiness, almost amounting to irritation, at the idea, based on Chancellor von Buelow's speech in the Reichstag, that Emperor William's visit to Tangier has a distinctly political motive. The subject was also much commented upon in the lobbies of parliament. "Russia's eclipse is Germany's opportunity," crystallized in a sentence the general idea prevalent on the subject. It is suggested Emperor William, far from desiring to irritate France, wishes rather to emphasize diminished value of the Russian alliance and thereby persuade France of the advisability of rapprochement with Germany. At the same time, those least inclined to bias at the emperor's action admit it is calculated to stiffen the sultan's resistance to the French policy in Morocco and so retard the civilizing scheme involved in the Anglo-French agreement. In this light the usually moderate Telegraph says the emperor's visit to Tangier can only be regarded as an unfriendly act.

#### Drastic Action Will Be Taken by Grand Jury Investigating Beef Trust if Witnesses Are Not Left Alone.

Chicago, March 30.—Conspiracy indictments are threatened against the heads of the big meat packing concerns unless alleged tampering with witnesses who have been summoned to testify before the federal grand jury is discontinued at once. With two witnesses on the stand to day, who, it is asserted, admitted they had been approached with the suggestion that their testimony be mild, the jury, it is declared, is getting ready to take drastic action.

"We will shut off interference with witnesses," said Assistant Attorney General Pugin to night, "even if we have to resort to proceedings under the conspiracy act to do so."

Belief was general to night that Pugin has already laid out new indictments. Fifteen witnesses were heard to day, three women being among those who testified. The women were said to be stenographers employed by the National Packing company.

Fifteen secret service men who have been frequently the corridors in the building where the grand jury is in session were not to be seen to day. District Attorney Morrison was said to have ordered that waiting witnesses instead of spending their time in the vicinity of the jury room are to be concealed in downtown hotels until called before the jury. In this way the witness will be more readily prevented from learning the identity of secret service men watching for possible irregularities.

Ten men arrived in the jury room this afternoon and reported to the government officials. It is said they are employed by railroads in Michigan.

## D. A. R. CONVENTION

Members of Patriotic Organization Will Soon Hold Annual Meeting in Washington—Contest for President General Spirited—Historical Sketch.

Springfield News: Nothing else so awakens the interest of a great number of women in the United States as an election in a women's organization and this the Daughters of the American Revolution are to be gratified in a short time in their annual election at Washington, D. C., to be held in April. It is not so much the national ticket which has caused so much lobbying and letter writing and wire pulling among the Illinois Daughters, as the election of a state regent. Through some strange stroke in constitution building it has been laid down that the state regents shall be elected at Washington instead of at the state conferences, as is the case with the vice regents. But when the delegates and their alternates of Illinois go to Washington this April they will go into executive session, instructed or not instructed, as the case may be. Each state holds separate sessions, so that the matter might as well be concluded in the state conferences, for it is all settled almost before they reach Washington. The contest in Illinois this year has been spirited. The favors were at one time equally divided between Mrs. Lytton and Mrs. Fessenden, both of Chicago. Each has had her supporters. Both are prominent women. Mrs. Fessenden was until a day or so ago, regent of her chapter, and Mrs. Lytton the vice regent. Now Mrs. Fessenden has resigned her office in order to give herself a clear field for the state regentship contest.

And while Mrs. Lytton is a most able woman, socially and intellectually bright, the favor of the country chapters has long been towards Mrs. Fessenden. Now the word comes from Chicago that Mrs. Lytton will make no further effort in the fight for the state regency, leaving everything to Mrs. Fessenden. It has almost been self evident that this would be, because of the large majority of chapters for Mrs. Fessenden.

Springfield delegates will go uninstructed, but there is little doubt as to which side they will take. The local chapter will be represented by Mrs. C. V. Hickox, the regent of the chapter, Miss Amy Gillett and Mrs. Harbison.

It has not been fully decided who of the other delegates will attend.

Aside from the state election, the national election is of great interest. It will represent this year a contest of several strong forces which have been at war with each other through several successive elections. The strongest force perhaps is Mrs. Donald McLean, of New York City, regent of the New York chapter. Twice has she appeared as a possible president general and twice been defeated. Now again she appears upon the horizon, but with a still greater or following the "anti-politics" party which supported her twice before. Only now they have grown. Two years ago when Mrs. Fairbanks, now president general, was elected she had a strong opponent in Mrs. McLean, whose votes from the "anti-politics" party had increased by twice their former number. Mrs. Manning, the president general pre-

ceding Mrs. Fairbanks, contested the office with Mrs. McLean, as did Mrs. Fairbanks. Now Mrs. McLean comes in again, and many say to win. She is not, however, the one favored by Mrs. Fairbanks, who is said to be against her. However, Mrs. McLean is among the most prominent women of the D. A. R. in the country.

She is said to be on the ticket again against Mrs. Fairbanks, because members of the society who live in Washington are making an effort to retain Mrs. Fairbanks as their president general. Two years is as much as any president general serves, and if elected Mrs. Fairbanks will establish a precedent. The reason is given that being the wife of the vice president of the United States, she will have a certain prestige which she will give to the Washington D. A. R. The result will be intensely interesting on account of the rise of the "anti-politics" party which is supporting Mrs. McLean.

To many a history of the D. A. R. will be interesting. The National Society of the Daughters of the American Revolution, according to a Washington daughter, who is considered an authority on all historical data of the society, was organized in Washington, D. C., Aug. 9, 1890. The founders were Miss Eugenia Washington, Miss May Desha and Mrs. Ellen Harden Dalworth, the only three women, who, owing to the season of the year, were near enough to the capital to respond to the call. Thus the society which numbers 40,000 women to day was modestly started.

The society was formerly organized Oct. 11, 1890. In October, 1890, at a meeting held at the home of Mrs. Cabell, the colors of Washington's staff, dark blue and white, were chosen and the motto "Amor Patriae" proposed, which was afterwards changed to "Home and Country." A seal bearing the figure of Abigail Adams in the costume of 1776 and seated at a spinning wheel, the suggestion of Miss Mary Desha, was adopted.

On June 8, 1891, the society was incorporated under the laws of congress for the District of Columbia as "The National Society of the Daughters of the American Revolution." The signers of the act of incorporation were Mrs. Caroline Scott, Sarah E. Goode, Mrs. Mary E. McDonald, Mrs. Mary E. Cabell, Mrs. Helen M. Boynton, Miss Eugenia Washington and Miss Mary Desha.

The officers of the National Society, D. A. R., consist of a president general, vice president general, in charge of organization, one historian general, one recording and corresponding secretary general, two register generals, one surgeon general, one chaplain general and such other officers as shall be found necessary. These officers are elected by ballot, by a vote of the majority of the members present at the annual meeting of the continental congress of the society and hold office for two years or until their successor shall be elected. No officer is eligible to the same office for more than two years consecutively. The presidents general of the society have been 1890-91 and until October, 1902, Mrs. Benjamin Harrison, 1898-1900-01, Mrs. Daniel Manning; 1901-5, Mrs. Charles W. Fairbanks. The delegates from the Rev. James Caldwell chapter of this city to the convention are Mrs. Frank J. Waddell and Mrs. E. E. Crabtree.

## Afterglow

(Being reprints of various musical news items from the most recent newspapers and periodicals.)

### FOREIGN NOTES.

A recent entertainment that elicited much praise in Berlin was given by Robert Kothé, of Munich, who sang folk songs of the fifteenth and sixteenth centuries and after the manner of that olden time accompanied himself upon the lute.

The "Peerless Pole," Paderewski, is selling his autograph throughout the world. It has been his custom to bestow these autographs gratuitously, but he is deeply interested in the erection in Warsaw of a monument to the memory of Frederic Chopin, and hopes by means of making a charge for his autograph to add very materially to this cause. All moneys so realized are returned to Warsaw for this purpose.

Mme. Faure recently died in Paris at the age of 77. She formerly sang at the Opera Comique under the name of Caroline Lefevre.

The Musical Courier of March 25 published a picture of the orchestra of the Tokio Academy of Music, conducted by Prof. Jencker. The orchestra plays music by the classic writers of the Occident. The Academy orchestra numbers thirty-eight musicians and the school boasts of a chorus of 118.

### AMERICAN NOTES.

Louis Dimond, of New York, a pupil of Joseffy, whose residence in New York is a matter of eminent satisfaction to musical America, has been playing in Germany with marked success. It is a new departure for students educated in America to concertize abroad and win instant recognition from European writers; but the matter has been accomplished by several Americans of late.

George Hamlin, who has sung for so long with such success in his native America, has been making a tour of the leading musical centers of Germany, and he more than satisfied the critics.

Charles Clark, an American baritone who sang successfully in London last year, was recalled to that place to give two recitals, one March 22 and the other March 28.

The "Elijah" was given in Denver March 9th at the annual oratorio concert of the Trinity choir. The choir was augmented by members of other city choirs until the chorus was 200 strong.

Denver boasts of a permanent orchestra of forty musicians, many fine choirs, two chorus clubs, in addition to many schools of music and a large number of capable musicians residing in her midst.

The American tour of the great Johann Gadske calls out great crowds of musical enthusiasts wherever she appears.

The last concert of the Philadelphia orchestra was given Saturday, March 25. The program was a "request program" and the numbers presented were "The Pathetic Symphony," by Tchaikowsky, which received 606 votes; the "Tannhauser overture" 405 votes, and the "Good Friday Spell," from "Parsifal," 290 votes.

Joseffy will play with the New York Symphony orchestra April 2. Ten days ago there was an immense demand for tickets.

Mary Wood Chase, of Chicago, has been successfully appearing in the east. Jacksonville is fortunate in counting her among future attractions.

### VOICE RECITAL.

The senior voice recital by Miss Nina Louise Hale of the College of Music, a pupil of Miss Kreider, was given in the chapel of the Woman's college Thursday afternoon. There was an appreciative audience present and the vocalist sang in good style and her work was well received. The program:

Songs—  
a. Mamma, non m'ama ..... Mascagni  
b. Consells a Nina ..... Wekerlin  
c. Du Ring au meinem Fluger ..... Schumann  
d. Du bist wie eine Blume ..... Liszt  
Aria—Il va venir! (La Juive) ..... Halévy  
Songs—  
a. The Wood-Pecker ..... Nevin  
b. Out of the Darkness ..... D'Hardetot  
c. The Stars Are Falling ..... Dellacqua  
d. The Nightingale ..... Harrocks  
e. I Mind the Day ..... Wilbey  
f. Country Wedding Song ..... Clutsam

### LAND DECISION.

St. Paul, March 30.—Judge Lochren of the United States district court to day decided that land in the Indian reservation is still subject to government control, even though title has passed from the government. The decision was given in denying a writ of habeas corpus for Hughunk, charged with introducing liquor on the Chippewa reservation. Land in Cass county had originally been allotted to an Indian woman and was sold by her heirs after her death. Funk rented the land from the owner and erected a saloon and began selling liquor. The case raises an entirely new point and one which is considered very important in dealing with Indians on reservations.

## THE LEGISLATURE

Corporation Act Amended—Stead-McKinley Anti-Trust Bill Advanced to Third Reading in the House.

Springfield, March 30.—The senate was in session about thirty minutes this morning, during which time it passed one joint resolution and several bills, advanced a number of bills to third reading and killed a couple by striking out the enacting clause. Among the bills passed were the two bills amending the corporation act so as to give the secretary of state more discretionary power over the licensing of foreign and domestic corporations. As the law now stands the secretary of state when applied to by a corporation formed under the laws of another state has no way of ascertaining its standing. Under the bill passed this morning he is given the right to investigate and require full report to be made before issuing a license. These bills were prepared by Secretary Rose and have the approval of the governor and attorney general.

Stubblefield's bill providing for a fee to be paid county recorders for releases of mortgages on the margin of the record was passed after being amended so as to fix the fee at 25 cents instead of 50 cents and inserting a provision that this fee should be used to pay the expenses of indexing the release as well as for the witnessing of the signature.

The other bills of Senator Stubblefield which place probate and circuit clerks, respectively, on a per diem instead of a salary, were killed by striking out the enacting clauses. The motion to strike out was made by Senator Berry, who declared that the bills ought not to pass. Under the present law these officers are allowed salaries which must be paid out of the fees of the office. The bills if enacted into law would make it obligatory to pay the per diem whether the office fees were sufficient or not. Among the bills advanced to third reading were Hans' child labor bill, which permits children to appear on the stage with the consent of their parents and the labor department. Evans' convict labor bill and Dixon's "loan shark" bill, which is amended in several particulars especially by fixing six months as the limit of assignments.

### THE HOUSE.

The Stead-McKinley anti-trust bill, including the insurance companies under the ban of the law, was advanced to third reading by the house this morning and made a special order for next Thursday morning. The bill was called up by Mr. McKinley. Mr. Austin objected, saying the Chicago underwriters had asked for a hearing and had been refused. Mr. McKinley moved a suspension of the rules and on this the vote was unanimous. One amendment was offered and defeated and the bill was then sent to third reading and made a special order.

The house passed the anti-pigeon shooting bill by almost unanimous vote. The bill prohibits the shooting of pigeons or birds of any kind from traps for amusement.

### WILL NAME NORTHCOTT.

Springfield News: It is understood to day that the appointment of former Lieutenant Governor Northcott as district attorney to succeed Thomas Worthington and of Senator Townsend of Galesburg to be United States marshal to succeed Charles P. Hiteh, who goes to the new eastern district, has been agreed upon by both the United States senators.

There has been some little doubt as to Northcott's appointment, but it is said this has been removed and he will be named.

### PLEASANT COMPANY.

Mrs. Otis Hoffman pleasantly entertained about twenty guests Thursday evening in honor of her cousin, J. W. Bailey, of Walla Walla, Wash. Music was a feature of the evening and light refreshments were served. The occasion proved a most delightful one for all present.

### JUSTICE COURTS.

James Wright was fined \$3. and costs in Esquire Arenz' court Thursday for a plain drunk.

### SAILING POSTPONED.

Washington, March 30.—The day of sailing from San Francisco of Secretary Taft and the congressional party bound for Manila has been postponed from July 1 next to July 8.

## Men Growing Weaker

Strenuous Life is Using Up Their Vital Forces and Energy Faster Than Nature Replaces Them.

As a result many are being stricken with paralysis, locomotor ataxia, and nervous prostration. To overcome anything is harmful, and a continuation of it will wear out the strongest man. Overwork, worry, brain-tire, high living, dissipation and other excesses and abuses waste away the most vital elements of the blood, brain and nerve forces, and disease sets in. At first there will be a general indisposition, poor appetite, indigestion, severe headache, wakefulness and weakness in the back and spine, the temper irritable, the spirits depressed, the memory poor and the mind weakened, ending in premature decline or decay. Dr. Chase's Blood and Nerve Food is composed of the same elements that have been wasted and worn out in the blood, brain and nerves. By making new blood it turns weakness into strength and forces new life and the vigor of youth into every portion of the body, restoring the patient to perfect manhood. Weigh yourself before taking it. Price 50 cents. Sold by LEE P. ALLCOTT, Druggist

## All diseases and affections of the SKIN

Positively cleared away in a hurry. I vouch for it.

Thousands of wretched people are miserable—imagining they have a bad poison of the blood—when in nine cases out of ten it is purely a local parasitic manifestation in the skin which can be cleared away in a hurry.

Such misery now cleared away as surely as the sun shines above. Not merely ATTEMPTED—not a matter of improvement only—but a clearing of it all away absolutely—and quickly, too.

(Case of Sammy Minkey. Cleared away and entirely cured in 21 days. Fully proven to us.)

## We vouch for this—absolutely.

It has been proven to us beyond the possibility of doubt that a new medication known as D. D. D. clears up the worst skin affections quickly. Its work seems astonishing, amazing, almost miraculous. (It is a specific formula which, because of its discovery by Dr. Decatur Dennis, is known as "D. D. D."). Its actual record sounds like a story of magic. But there is no room for doubt about it whatever; full proofs indisputable in every respect have been submitted to us regarding hundreds of cases—among them the one case shown here of the boy (Sammy Minkey), who was cured in 21 days. The results are not only complete, but permanent; in this case it is nearly two years since the disease was cleared out of the skin, and no taint of it has appeared since.

Each one of the known skin affections is parasitic in nature, and all of them have yielded to "D. D. D." The preparation is being used by most of the skin specialists. It is compounded for druggists solely by the D. D. D. Co., 70 Dearborn St., Chicago.

It is utilized by every family physician who has taken the trouble to investigate the work it is accomplishing. It is used in the Cook County Hospital, Chicago.

It will clear away any parasitic break in the skin in from 3 days to 60 days—time Visit the undersigned and see proofs that will make you a happier human. \$1.00 buys the prescription—already made up in sealed bottles, with authentic label on each.

## SEEING IS BELIEVING

The Wadsworth Bros. Chico is a Long Havana Filler, Says Armstrong & Armstrong and We Prove It.

When a cigar salesman told Mr. Armstrong, of Armstrong & Armstrong, that it was possible to sell a long Havana filler, such as he claimed the Wadsworth Bros. Chico is, for 5c, the reply was: "Well, it is an easy thing to see whether it can be done or not," and he took a Chico from its box and cut it open.

The filler was there—long, rich, silky, Havana—just what was needed to make the good smoke that the Chico is. Seeing is believing, but with the Chico, smoking is better. Try one and see for yourself, all lovers of a good smoke, how fine a cigar can be sold for 5c. The best people in Jacksonville, those who never used to smoke anything less than a 10c cigar, now buy the Chico at Armstrong & Armstrong's for a nickel, and get a better smoke for less money.

## CENTENARY REVIVAL.

The Bible reading Thursday afternoon was on "Growth in Not Into Grace." It was blessed to many Christians whose spiritual life has been quickened and deepened during the meetings.

The sermon at night was preached by Dr. Oneal, of Grace church. It was based on one of the sayings of the wise man: "Wisdom is the principal thing. With all thy getting, get wisdom. It was held that in the Book of Proverbs the word "Wisdom" means piety. The preacher therefore treated "Wisdom" as "Religion," and in a masterly way with clearness and splendid diction showed that it was the principal thing in life. He made a powerful plea for men to seek it as indispensable to true living and to the soul in dying.

Rev. Mr. Rigg sang with fine effect, as he did at the afternoon service.

To night will probably be the last service at which Mr. Rigg will be present. It will be a special service for praise. Robert Stephens is expected to assist. Special efforts will be made to have the attendance of the many saints of long years of experience. "It will be good to be there."

Saturday at 2 p. m. candidates for membership in the church will meet the pastor preparatory to Sunday's service.

Quarterly meeting of the German M. E. church next Sunday, April 2. Preparatory service to night (Friday) at 7:30. At the close of the public service the quarterly conference will hold its session. All members expected to be present.  
W. C. Schultze, Pastor.

## BAPTIST MEN'S LEAGUE.

The Men's League of the First Baptist church held their regular monthly meeting in the church parlors Thursday evening. A very excellent supper was served at 6:30 o'clock by the members of the Young Ladies' Aid society and many delicacies were prepared in the menu served by them. The table decorations were neatly designed in pink and white, the adopted colors of their society.

This was the first meeting in the term of the new president, Dr. A. S. Loving, and following the transaction of the regular business the new committees for the ensuing six months were named. Joy Green, president of the Men's League of the Christian church, was a guest on this occasion and when called on for remarks spoke appropriately of the interests of the young men's movement in church work.

There are times when a dollar bill goes farther than a wagon load of sympathy.

Calvin J. Wadsworth, of Saginaw, Mich., has invented or discovered a process whereby gasoline may be rendered non-explosive.

A snail manufacturing concern reports net earnings of \$2,458,419 for the year 1904. A business like that is not to be lightly sneezed at.

Dr. Guthrie discovered chloroform while practicing medicine at Jewettville, N. Y. He also fired the first cannon ever fired by percussion powder.

Illinois loses every year at least 8,000 people from tuberculosis, most of them dying in the active period of life and after having been disabled for several years.

It creates an uneasy, apprehensive feeling in a fellow with a weak back and an antipathy toward the spade and rake to see his wife looking over garden seed catalogues and making gossipy notes on the margin.

Thirty-five years ago W. H. Newman was a brakeman on a southern railroad at \$2 a day; to day he is president of the great Vanderbilt system, with a salary of \$120,000 a year, a palatial residence in New York and a private car so sumptuously appointed that a king might envy it.

French chemistry has produced a plausible imitation of the ordinary egg of commerce. The shell is made with a blow pipe by a combination of lime and bismuth. The white is made from sulphur, carbon and beef fat and the yolk with beef blood and magnesia colored with chrome yellow.

There is a movement extending all over this country to put an end once for all to the disgusting and unhealthy practice of expectorating in the streets and public conveyances, and thought the penalty may seem severe in some cases it is the only means evidently of stamping out this pernicious habit.

Much has been said at various times about Roosevelt's luck. Good fortune attended his efforts. He was especially fortunate in being born with a good mind and a remarkably rugged body, but this is not enough to account for his success in life. He has wisely and carefully husbanded his energies both physical and mental and his every act has been clean and honorable. This is the real secret of his marvelous "luck."

It is asserted that a change is contemplated in the form of money orders issued by the postoffice department. This is deemed advisable on account of the large number of forgeries recently committed by a St. Louis drug clerk, whose operations during the past few months have amounted to \$5,500. Swindlers purchase orders for small sums and then erase the amount by means of chemicals and refill the blank to suit their will. The old blank with marginal tear-off made such swindles impossible.

**BRYAN AND FOLK.**  
Globe-Democrat: Joseph W. Folk was starred as an attraction at the Jefferson day banquet in New York in April. He has declined the invitation and will go to the Iroquois club's Chicago dinner on the same day instead. As the New York invitation was sent several weeks ago, and as his acceptance was deemed certain, the declination causes embarrassment which is likely to be transmuted into anger. The anger is sure to come when the New Yorkers learn that the reason the governor chooses Chicago instead of New York for the launching place for his presidential boom is because Chicago is a Bryan affair, and New York is run in the interest of the Cleveland section of the party.  
At the Iroquois dinner, Mr. Folk will formally begin his presidential canvass. It is expected that Mr. Bryan will be at the Chicago banquet. It will be under Bryanite aus-

pieces in any case. Bryan likes Folk. He has taken several opportunities to show his favor. The attachment is reciprocated as much as is possible in the exigency which makes them rival claimants for the presidential candidacy. Bryan is not saying or intimating he himself seeks the nomination in 1908, but the indications point to him is a probability. He stands in the background, while Folk will figure in the role of an avowed presidency seeker.

This role gives a significance to Folk's preference to Chicago over New York as the place at which he will make his advent as a national figure. The governor belongs to the Bryan wing of the party. He is against Cleveland and all his works. Folk's friends have said this many times. They said it at the time of the St. Louis convention of 1904. Folk himself proclaims it now. If he gets the nomination in 1908 his appeal for support will be to the western rather than to the eastern section of the party. Despite such reform as he may make or unmake in the interval between now and the opening of the next national convention, the anti-Bryan faction of the Democracy will take pains to fight Folk if his name, as seems probable, should be presented in that assembly. While Bryan is likely to carry off the prize, Folk's advent as an avowed aspirant will attract national attention to his appearance at the Iroquois banquet.

**Concessions For Harvard Athletes.**  
By a ruling of the Harvard athletic committee announced recently students will be allowed to take part in two branches of sport in the same term. This was prohibited under former constructions of the eligibility rules. The ruling will, it is thought, prove of advantage to the baseball team, which is weak in pitching material. Schoenfuuss, Harvard's star shot putter, is a candidate for pitcher on the ball team and, if accepted, can still continue his work on the track team.

Manager Joe Kelly of the Cincinnati Reds in reply to George Tobenu's suggestion that Kelly play Odwell in center field says: "I have never given the change a thought and have no intention of making it. GEN. HERKIMER'S HOME.

**Move of Herkimer County Historical Society to Preserve It.**

A movement has been started in Little Falls, N. Y., for the purchase of the old General Nicholas Herkimer manor, with the object of its preservation as a historical museum, says the Syracuse Post-Standard. Since the narrow escape of the old home from destruction by fire the Herkimer County Historical society and the Daughters of the American Revolution have been spurred to renewed activity in their efforts to the end that the historic home in which General Herkimer lived and died may be saved as a monument to the memory of the famous old Revolutionary hero.

At the present time it is used as the dwelling of a market gardener and is fast going to decay. The house and land adjoining are now owned by Mrs. Gertrude Garlock of Little Falls, who is a direct descendant of the Herkimer.

The house is a three story brick and of the old colonial architecture, situated about two miles east of Little Falls on the horn bank of the Erie canal and about 300 feet from the graveyard, upon which was recently erected a 100 foot granite obelisk. Under the old barn the powder magazine is still intact, the underground passageway from the house to the magazine having fallen in most of the way. The old portholes through which the patriots trained their guns are still visible.

It is the aim of the movement to repair the house, keeping as far as possible the original design and making it a rendezvous for students of American history who are interested in the historical points along the Mohawk valley.

**COACH'S PRINCELY SALARY.**

**Harvard Will Give Bill Reid \$5,500 a Year For Football.**

Bill Reid, Harvard's famous old athlete, will coach the crimson football team next fall, says a Cambridge (Mass.) special dispatch to the New York Times. He will receive a salary of \$5,500, part of which will be paid by the athletic committee and the rest by wealthy graduates who are interested in Harvard's athletics.

The proposition to engage Reid, according to a statement given out by Professor Coolidge, chairman of the athletic committee, was made at a meeting of the committee on Feb. 17, and the day previous to that the committee was unwilling to pay a football coach a larger salary than that of a full fledged professor.

Reid will come to Cambridge probably within a month. Although his contract provides for only one year of service, it is so framed that he can extend it for three years, thus making his policy permanent.

Reid played fullback on the 1898 team, which defeated Yale at New Haven, as well as on the teams of 1899 and 1900. He was captain of the baseball team in 1900 and 1901 and was head coach of the university team in the fall of 1901, when Harvard last defeated Yale. He is at present a submaster in his father's school, the Belmont Preparatory school, at Belmont, Cal.

## GAVE MINSTREL PERFORMANCE

Burnt Cork Artists From the High School Gave Clever Entertainment Before a Large and Appreciative Audience — Cracked Some Good Jokes.

That the public high school is a popular institution has been evidenced more than once by the great crowds and enthusiasm which has always greeted the efforts of the students in whatever they undertake, and the minstrel performance given in the high school auditorium Thursday evening under the auspices of the athletic association was no exception. Hundreds thronged to the attraction, until the large room was crowded to its fullest capacity, many standing, and a large number of chairs being brought into service. And although the expectations of the audience were great, the program presented was one which could not but have satisfied the demands of the most exacting of the audience. Wit, humor and fun, revelry and song marked the first part, followed by a four part olio, giving as good a contortionist and tumbling exhibition as one sees anywhere, a trilogy by black face maidens, a comedy prize fight for a grand finale, added to which the work of the well drilled high school orchestra made an offering which for a cure for the blues could not be excelled anywhere.

Mr. Carl Warner made an excellent interloper and the end men also showed the ability of veterans of the black face profession. The remainder of the company were adequate to fill out the production and keep up the ends in such a successful manner that there was not a dull moment in the whole performance. The new jokes were good, and the old ones were as funny as ever. The local hits were numerous and timely, and met with instant appreciation. The vocal selections were received with roars of laughter and applause, the selection by the "end men" and one given by Smith and Huffaker, the "little wonders" being the favorites.

The short talk by Mr. Bowen introducing the olio was excellent, and would have made a better hit had the noise at the time been less. Next came the mat work and tumbling by Morrison, Jacoby and Glines, assisted by Richards. This was Mr. Glines' first appearance in public, and he has been practicing contortion work but a short time, but his performance was fully as good as most of that seen on the vaudeville stage to day. Morrison and Jacoby were also excellent in their tumbling, and received a good hand.

One of the greatest hits of the evening was made by a trio consisting of Misses Hazel Brown, Ruth Brown and Carrie Dunlap, who appeared on the program as Laraminta Hawkins, Lucy Jameson and Snowdy White. Their rendition of "Romeo" brought down the house. Miss Ruth Brown, in response to numerous encores, appeared with the "bones," giving an exhibition of the art that might have won the envy of a professional.

The comedy prize fight by Richards and Warner made a fitting and uproarious close to an uproarious evening of entertainment.

The members of the black face company were drilled by Mr. George W. Davis. His untiring energy and originality are responsible for a large part of the success of the entertainment, and to him a great share of the credit should be given. The accompanist for the evening was Miss Marie Leck.

The success of the High School minstrels was so pronounced that they will probably be repeated at a date to be announced later.

The program in detail was as follows: INTRODUCTORY. Carl Warner, interloper; Carl Richards, Ralph Bowen, Fred Goodrick, Lamar Halliwell, Buford Hayden, Frank Anderson, end men; Lloyd Smith, Frank Cooper, John Butler, Frank Huffaker, Harrison King, John Mullenix, Walter Wehrle, Lloyd McKimney, Walter Glines, Cady Funk, Herbert Colton, Herbert Little.

Vocal selections—Just a Little Bit of Sugar Cane—Mr. Herbert Colton, Sweet Thoughts of Home—Buford Hayden, You Must Think I'm Santa Claus—Mr. Ralph Bowen, The Turnkey's Song—Frank Anderson, Selection by sextet of end men—Richards, Bowen, Goodrick, Hayden, Anderson and Halliwell, Shame on You—Carl Richards, Scissors to Grind—Lamar Halliwell, Back to Baltimore—Smith and Huffaker, O.T.O.

A short talk by Mr. Ralph Bowen, Mat work and tumbling—Morrison, Jacoby and Glines, assisted by Richards, Romeo—Laraminta Hawkins, Lucy Jameson, Snowdy White, Prize fight—Mr. Carl Richards, of Germany, vs. Mr. Carl Warner, of Ireland, Referee, Lamar Halliwell; second for Richards, Harrison King; second for Warner, Frank Huffaker.

## DEATH RECORD

The entire community was saddened Thursday to learn of the sudden and unexpected death of Mrs. John S. Duer, who passed away at Passavant hospital Thursday morning at 6:30 o'clock. But a few days since she had come to this city from her home in Doniphan, Neb., to visit her mother, Mrs. E. E. Clark, to whom her sudden bereavement is a terrible shock.

Born in Port Huron, Mich., in 1876, Marye Paine Clark, while still very young, removed with her parents to Springfield, and in 1894 removed with her mother to this city. She early in life exhibited those beautiful traits of character which endeared her to all. She received her early education in the public schools of Springfield and of this city, and graduated from the College of Music in this city in 1897, being a member of the Phi Nu society while a student there.

Miss Clark possessed a magnificent voice, which was heard in concert in the east, and also for a year in the Francis Wilson Opera company, in which Miss Clark was the understudy of the prima donna, Maude Lillian Berri, whose part she frequently sang with great success.

On account of failing health Miss Clark retired from the operatic stage at the close of her first season, and returned to this city. She was married about four years ago to John S. Duer, of Doniphan, Neb. They resided for a time in Chicago and St. Louis before taking up their residence on the country place of Mr. Duer near Doniphan.

Beside the husband, who is expected here to day, and the mother, one sister survives, Miss Clara Clark, of this city, who will have the heartfelt sympathy of all in their sad bereavement.

The funeral arrangements will be announced later.

SOOY. Wallace Sooy, son of Mrs. E. J. Sooy, of Woodson, died at Passavant hospital at 1:10 o'clock Thursday, aged 11 years and 7 months, after an illness of eight days of appendicitis. The funeral will be held at the Presbyterian church at Woodson Saturday morning at 10 o'clock and interment will be in Diamond Grove cemetery.

## FUNERALS

PALMER. Short funeral services over the remains of Rev. H. Palmer were held at the residence of his parents, Dr. and Mrs. M. J. Palmer, in Beards-

town Thursday afternoon at 1:30 o'clock. Rev. J. O. Nate, pastor of the Methodist church, assisted by Rev. J. H. Waterbury, of the Congregational church, officiated in the presence of a large gathering of relatives and immediate friends of the family.

From the residence the funeral cortege moved to the M. E. church, where a public funeral service was held. The church edifice was filled with a large concourse of relatives and sympathizing friends. Rev. Mr. Nate preached a most impressive sermon, reviewing the life of deceased and spoke of his strong faith in the teachings of the M. E. church, of which he was member. Rev. Mr. Waterbury offered a fervent prayer. A quartet, composed of Mrs. M. H. Harris, Miss Imo Condit, Messrs. Edward McKenzie and Paul Green, sang a number of sacred selections. Mrs. Henry Phillips sang a beautiful solo, "The Best Friend We Have Is Jesus."

There were numerous floral offerings, the altar rail being banked with beautiful flowers and the bier was covered with artistic floral designs, tributes of respect and esteem of friends of deceased. The flowers were in charge of Misses Edna Dunn, Maud Schaeffer, Audrey Garm, Beatrice Benson, Ada Shute and Frances Kellogg.

The class of '03, Beards town high school, of which deceased was a member, attended the services in a body. The class of '07, Illinois college, was represented by Howard Thompson.

After the services at the church the remains were conveyed to the City cemetery, where they were tenderly laid to rest. The bearers were: Howard Thompson, of Jacksonville, Carl Dickens, Bailey Fulk, Harry Stout, Charles Ebers and William Doyle, all classmates of deceased.

Everybody in Jacksonville should by all means attend Herman's grand, extraordinary opening and witness the most brilliant millinery display ever seen in the state.

AT THE GRAND. "The Three Musketeers" was presented at the Grand Thursday evening by the Retford Stock company. A large and enthusiastic audience was present. The production, which was of French origin, was played to perfection by the able cast. The specialties which were given between the acts were well received, as they have been at all of the performances in the past.

POLICE NEWS. Harry Richardson was arrested for using abusive language by Policeman Deatherage. Josephine Smith was arrested on an execution for a back fine by Captain Kennedy.

Skirts up to \$6.50, this week \$3.95 at Leader.

Causes of Appendicitis. Chill, imperfect mastication and the excessive use of aperients, according to Dr. Joseph Kidd in an article in the Nineteenth Century, are the chief causes of appendicitis. As all these are causes readily guarded against and the guarding against them will also conduce to general health and happiness, there seems to be no reason why intelligent people should not aid in banishing one of the most dangerous of modern diseases.

The Horses That Come High. Last year in this country six horses earned more than \$50,000 each on the turf. This reminds us of the old story of the young man who was scolded for wasting his money on fast horses. He replied, "It was the slow, not the fast, ones that were responsible for my downfall."—Boston Herald.

## RAILROAD NEWS NOTES

Nine Hour Schedule Again in Force at Shops—First Aid Corps Organized—Items of Interest and Personal Mention.

Two cars of northern potatoes were received via the Burlington from Minnesota yesterday for the local dealers.

Charles Brown, who has held a position with the Alton at Roadhouse for several months as an engineer, has been put back to firing again. This was caused by the shortage of work on the Alton and the old engineers have been given the preference of the runs. Mr. Brown is spending a few days with friends in this city.

L. W. Berry, division superintendent of the Burlington, and T. L. Smith, master mechanic, passed through this city yesterday south bound on the company motor car. They were on an inspection trip and will spend several days on this division.

SHOP NOTES. A notice was posted in the different departments of the shops Thursday announcing that the working hours of the Jacksonville shops will be from 7 a. m. to 12 noon and from 1 p. m. to 5 p. m. The change will take place Saturday, April 1st. The shops has been running on an eight hour scale for several weeks, but this new announcement will enable the employees to work nine hours in the future.

A relief corp has been formed at the shops. One man from each department has been enlisted as follows: Edward Learie, paint shop; James Buckley, yard inspector; Chas. Meier, foreman of the tool room; H. C. Bacon, mill, and Frank DeSilva, of the machine shop. These men were instructed by the company physician, Dr. Carl E. Black, as to their official duties. In case of an accident in any of the departments it is the duty of the man in whose department the accident occurs to take temporary charge of the injured man until the company physician arrives on the scene. CONDITIONS BAD. Tiflis, March 30.—Alarming conditions are reported officially to exist in Gori district, trans Caucasus where losses sustained by land proprietors through peasant attacks and strikes have been enormous. The postal service has ceased and documents in public offices have been destroyed, thus preventing drawing up of lists for military service. More Cossacks have been sent into the district. March 28, thousands of peasants marched through Gori, carrying red flags and destroyed a number of shops. The crowd also attacked a military patrol. Soldiers fired a volley, wounding ten peasants, one of whom has since died.

## PEOPLE OF THE DAY

**A Man of Peace.**  
Congressman Robert Baker of New York, who recently created a sensation in the house by introducing a resolution denouncing the action of the president in sending a message of condolence to the czar on the assassination of Grand Duke Sergius, is a unique figure in the national congress. Mr. Baker objected to the Sergius message because of the refusal of the house to adjourn out of respect to the Russian killed on the streets of St. Petersburg on Jan. 22. In offering his resolution he said that he had been told that if he introduced it a motion would be made to expel him, and he defied any mem-

ber to move to that effect. "Make it now," he shouted. "Expel, I tell you. Introduce your motion to expel."

Mr. Baker is a native of Bury St. Edmunds, England, and was born in 1802. Since becoming a citizen of the United States he has taken an active interest in politics. He is an enthusiastic supporter of the single tax theory of the late Henry George, believes in the abolition of all tariffs and advocates national and municipal ownership of public utilities. He was elected to the Fifty-eighth congress from the Sixth New York district, which embraces a portion of the borough of Brooklyn, New York city, as a Democrat. Mr. Baker is a man of peace and is opposed to armies and navies. He was not a candidate for re-election to congress.

**The Demand For Goats.**  
Representative Burleson of Texas was pleading in the house for the report of an agricultural department document concerning goats.

"This is a special pamphlet on the Angora goat issued years ago," said Burleson. "Copies are exhausted, and there are many inquiries for it."

"I would ask," said Representative Mann of Illinois, "if this great demand comes from the secret societies throughout the country?"—New York World.

**Ruler of Santo Domingo.**  
Carlos F. Morales, president of the republic of Santo Domingo, has lived the strenuous life since he became the head of that diminutive nation. However, if the United States senate ratifies the amended protocol for a treaty which empowers Uecla Sau to preserve the public order of the Dominican republic, affairs in that land of revolutions will be on a firmer basis.

President Morales is said to be a brave and honest man, who is trying to stop the looting of the public treasury which has characterized previous administrations. His predecessor, Don Juan Jimenez, was educated and honest, but he lacked courage; consequently his duration as president was very short.

Morales was born in Puerto Plata, on the north coast of the island, in 1807.

CARLOS F. MORALES.

his father being a well to do merchant. Receiving a seminary education, he became a priest, remaining such for eight years. Leaving the church, he took a wife and entered politics, becoming governor of Puerto Plata. Later he was imprisoned; but making his escape from jail, he appeared at the head of the Monte Christi rebels, who were then out for Don Juan Jimenez. As there were practically three revolutions going on in the country at the time, Morales, in going forth to fight one of these factions, proposed to the leaders that the two factions unite and put down the third and then allow the people to decide by a general election who should be their president. This was accomplished, and Morales was chosen provisional dictator. Last June an election was held, and he was chosen president.

## Four Facts For Sick Women To Consider

**Lydia E. Pinkham's Vegetable Compound Has an Unequalled Record of Cures—Mrs. Pinkham's Advice Is Confidential, Free, and Always Helpful**

**First.**—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful menstruation, leucorrhoea, displacements of the uterus, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

**Second.**—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, all uterine and ovarian inflammation, weakness and displacements, regulating menstruation perfectly and overcoming its pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

**Third.**—The great volume of uncollected and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by our case, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

**Fourth.**—Every ailing woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

**Mrs. Pinkham's Standing Invitation to Women.**—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

## STILL WORKING AT 111.

Thomas Morris of Custer county, Neb., is still a vigorous, hale old man, who does daily pottering chores, although he is 111 years old. Morris was born at Werne, Shropshire, England, learned the butcher's and later the cobbler's trade, and when he was eighty-two he came to America with the family, with whom he now lives. Since then he has been growing up with the country. He attributes his longevity chiefly to his dietary and in particular to his avoiding hot bread and pastry. He also has always drunk beer and thinks it has benefited him. While he has always smoked and chewed tobacco, he is not so emphatic in its favor, but says it has never hurt him and that its use gave him comfort. His teeth are still sound, and he has never had to call the dentist to his aid.

## Very Human Indeed.

Two orang outangs in Paris have acquired a taste for mulled claret. One of them, named Virginie, made her keeper anxious by coughing. So he tried the effect of a hot potato. Virginie drank, rolled her eyes expressively and began to mend. Her cough ceased, and so did the mulled claret. "This did not please Virginie at all. She pondered awhile and then had a brilliant idea. The cough began again, but it was so plainly artificial that the keeper smiled. Everybody smiled. Virginie's companion, Frascatore, entered heartily into the joke by coughing on his own account. Now the two animals have their jorum of mulled claret regularly.

**King Alfonso and American Girls.**  
The Rev. Thomas Van Ness, who has traveled much in Spain and who has a rich fund of stories of that country, tells this anecdote of King Alfonso:

A certain member of the Spanish court was urging upon his majesty the advisability of his marriage with a certain princess when the young king interrupted him.

"No," he said, "I shall marry an American—first, because the Americans are all rich, and that will please you; second, because they are all republicans, and that will please me of my people; third, because they are all beautiful, and that will please me."—Boston Record.

## HIS FRANK OPINION

"Turn around," requested the young man, settling his eyeglasses a little more firmly on his nose. "No, I mean to eye side. I want to get the profile. I'm-n. Now, face me again. Close your eyes. How can I exercise my judgment chiefly when you are looking at me?"

"I don't see what that has to do with it," said the girl. "But I'm sure I don't want to look at you. There! Will that do?"

"Open them, quick!" said the young man hastily. "Heavens! You had a narrow escape then."

"From what?" asked the girl innocently.

"If you had taken a step forward you might have walked into the table and smashed something."

"Oh!"

"I think perhaps it will do if you just fix your eyes on the bookcase. I don't want to be tempted beyond my strength. Your chin up a trifle, please."

"You aren't looking at the hat at all," said the girl. "You're looking at me."

"Strange!" said the young man musingly. "I believe I was; but, on the other hand, you were looking at me instead of at the bookcase."

"Well, hurry, then. I don't want to stand here on exhibition all day. Do you like it or don't you?"

"You really want my opinion?"

"Do you suppose I've been standing here posing for ten minutes for anything else?"

"I don't know. I wasn't sure. I mean, of course, that I wasn't sure that you attached a particular value to my opinion."

"Make your mind easy. I really want your opinion. I'm not above getting hints from everybody. Mr. Canlow thinks it's perfectly stunning—the most becoming thing he ever saw me wear."

"Well, you certainly are not."

"Not what?"

"Above getting hints from anybody. So he's been here, has he?"

"He happened to call—yes."

"And you got out your millinery to show him?"

"Don't be absurd and don't look at me so savagely. I had it on when he came, showing it to mother."

"He called to see your mother, I suppose?"

"No, I think he called to see me."

"Oh!"

"But mother took it for granted that he came to see her, for she stayed and visited with him. Perhaps it was because I winked at her."

"Bless her dear heart!" said the young man fervently. "She's a jewel."

"Well, what do you think of it?"

"See here, I don't want to decide on a thing like that too hastily. What do you think of it yourself?"

"I'm not going to help you a bit. You seem to have a mind of your own about some things."

"As much as you'll allow me to have."

"Nonsense! I don't think I have a particle of influence over you in any way."

"I like that! Who made me give up smoking, I'd like to know, and who induced me to sit out a symphony concert?"

"You said you enjoyed it beyond anything."

"So I did. My pipes were the one solace I had on earth before I met you. Enjoyment is too mild a name for it."

"I mean the concert."

"Well, enjoyment isn't too mild a name for that."

"I'm disappointed in you," said the girl in a changed tone. "I really did believe you liked it."

"I did. Truly I did," declared the young man hastily. "I don't know when I've liked anything more. It was the first time I had ever sat next to you every minute of an entire evening. You see, that took my attention off the concert itself."

"I dare say. But what about the hat?"

"It's quite a hat, all right."

"That's what it was represented to be."

"Yes. Couldn't be any mistake about it, could there? Of course, it hasn't a crown, but then it has a decided brim to it, and they don't put feathers on a miff, do they? Well, as to that hat—Turn around, full face, once more."

"I've turned around until I'm tired."

"You say Canlow liked it."

"Immensely!"

"Well, I don't!"

"The girl removed the hatpins with an offended air, and then took off the hat and laid it on the table."

"Well, you don't think it becomes me?"

"Not a particle," said the young man coolly. "Just look at it there. Did you ever see a more lopsided, idiotic, futile nightmare? Become you! No, but you become it, all right!"

"Oh, bother!" said the girl.

"Keep it on," said the young man. "I've got the tickets right in my pocket and a cab outside."—Chicago News.

## About Honey.

Honey if eaten regularly is said to be not only nutritious and twice as valuable an article of diet, for instance, as pork, but an admirable antidote to diseases of the respiratory organs. It is also most beneficial for the skin and complexion and an excellent cosmetic in cold, wintry weather. In olden days honey was highly esteemed and was highly priced as well. In the great forest charter the privilege of every man to be entitled to the honey found on his own ground was rigidly insisted upon. Irish honey is a particularly toothsome duty, especially the heath-honey of the west, and many of the daughters of Irish peasant farmers find it a profitable if modest industry. —London Times.

## A Trimmer.

Richard Olney was attacking that bellicose spirit which he has very cleverly termed the war bacillus, and in the course of his attack he had occasion to refer to a certain diplomat.

While Mr. Olney was speaking a man with bow legs passed and saluted.

"There goes Hunt," said Mr. Olney. "A more bowlegged man never lived than he." Then, going back to the diplomat, he resumed:

"The trouble with this diplomat is that he is all things to all men. With A he is a Methodist, with B he is a Protestant, with C he is a Presbyterian and, with D, with Hunt he is bowlegged."—Baltimore Herald.

## APPETITES.

**Druggist Lee P. Allcott Explains How Vinol Creates a Desire for Food.**

"Vinol is the Greatest Aid to Digestion That We Have Ever Known," Said Mr. Allcott.

"It contains all of the active, medicinal-curative elements that are found in cod liver oil, without any oil or grease.

"These medicinal elements act so favorably upon the stomach that this organ obtains for itself the elements necessary for creating new flesh, muscle tissue, and for making rich, red blood."

"When the stomach acts easily and naturally, a desire is created for good, simple food, and a good appetite is the sure result."

"With cod liver oil in its old form, the medicinal elements which it contained were unable to do their best work because of the obnoxious oil that enveloped them."

"Now in Vinol we have those same medicinal elements separated from the vile-tasting oil, and we have a tonic and builder that is simply marvellous in its action."

"We want every one in Jacksonville to know more about our Vinol, how it cures and what it cures. Certainly Vinol is the greatest tonic and builder we have ever sold."

"Lack of appetite is not itself a disease, but a symptom of weakness showing itself in the nerves of the stomach, which control the desire for food. We guarantee Vinol will cure this weakness or give back your money." Lee P. Allcott, druggist.

## A Solemn Duty.

A solemn duty which we owe society, our children and ourselves is that nothing which can be done to assist nature at that time when our wives are to become mothers should be left undone. Of all the countless details to be observed at such a time, no single one is of more importance than the bodily welfare of the expectant mother; she must not experience undue suffering through any lack of effort on our part.

## MOTHER'S FRIEND

should be the recourse of all real men and women at such times; it is easily obtainable, and it is a positive crime not to procure it. Its offices are to relax the muscles and tissues intimately associated in this greatest of the Creator's phenomena, and by simple external applications a result is obtained which at the appointed time permits the mother to undergo her greatest joy with fortitude, and bring into the world a child worthy of its parents. \$1.00, all druggists. ## A Cheap Diet.

Soda water is now prescribed for hunger, especially for the abnormal hunger produced by disease. The seat of hunger is found in the solar plexus. By the use of water charged with carbonic acid gas the branches of the solar plexus distributed through the mucous membrane of the stomach are influenced in such a way that the abnormal irritation of the plexus, which is the foundation for the ravenous hunger often present in diabetes and certain forms of indigestion, may be greatly mitigated if not wholly appeased.
